From Draft to Publish: Mastering Scientific Writing

Effective scientific writing is not just about grammar and clarity—it's about enhancing the visibility of your work. Join this dynamic one-hour session with Serena Bradde, Chief Editor of PRX Life, and discover how to craft manuscripts that captivate readers and impress journal editors. Tailored for students and early-career researchers at the intersection of biology with physics, computer science, and engineering, this seminar provides insider tips on writing clear, compelling manuscripts that effectively communicate your research. Through real examples and practical advice, including insights from a journal editor's perspective, you'll test your scientific writing skills and sharpen your manuscript preparation.

Date: Monday, December 9, 2024

Time: 16:15 h – 17:30h

Location: Biozentrum, 02.073
